- Engaged with clients to plan and optimize site issues and queries. Applied emerging technologies to update and maintain site applicability.

PROJECTS

Knitting Counter Site- PERSONAL PROJECT

<https://lenac0des.github.io/counting/>

- One of my personal hobbies is knitting so this is a personal project of mine, that came to life using HTML, CSS, JavaScript, and a little bit of Bootstrap.
- The purpose of this project is to have the user log what row they are on using the increase, decrease and save buttons.

Password Generator Site- Group collaborated project

<https://lenac0des.github.io/passwordGenerator/>

- This password generator site helps the user pick a secured password for a new account of their choosing. The site will generate a new random password that is not going to be less than 8 characters, the password will include numbers, letters, special characters uppercase and lowercase characters.
